## Acceptable Shipments

Shipments are acceptable for transportation only when the rules and regulations shown in this Service Guide and all laws, ordinances, and other governmental rules and regulations governing the transportation thereof have been complied with by the shipper and/or consignee.

## Account Numbers

Account-Specific Rates will not apply unless charged to a valid AGS account. AGS account holders who pay for shipments originating with a credit card instead of charging to a valid AGS account settled by check, ACH or Wire Transfer may forfeit applicable “cash” discounts previously extended.

Payment of US Customs duties, taxes and merchandise processing fee charges need to be made directly to the respective government agency via ACH, otherwise AGS will require advance funding via ACH or Wire Transfer within eight (8) business days prior to disbursing amounts due the government on behalf of an importer, that will subject to ancillary clearance service fees.

## Advancement of Charge

- A. Upon request, AGS will advance the charges for transportation, cartage, storage, loading, unloading, unpacking, packing and processing NOT performed by AGS, when a sufficient guarantee is given by either the shipper or consignee that such charges will be paid. For each advancement of charges, a service fee of \$10.00 per \$100.00 of the actual advanced amount, or fraction thereof, will be assessed, subject to a minimum advancement fee of \$10.00.
- B. AGS will not advance charges on any shipment on which prepayment of charges is required unless the amount of such advances has been deposited in cash with AGS.

## AGS Housebill (Waybill)

- A. The shipper shall have the duty to prepare and present a non-negotiable AGS housebill (waybill) with each shipment tendered for transportation. If the shipper shall fail to present such waybill to AGS at the time of tendering the shipment, AGS will accept such shipment if accompanied by a non-negotiable document. No waybill or other shipping document issued or accepted by AGS shall be negotiable. Each such shipment, irrespective of the form of shipping document accepted by AGS in connection therewith, shall be subject to the rules, regulations, rates and charges set forth by AGS in effect on the day of acceptance of such shipment by AGS.
- B. The waybill shall inure to the benefit of and be binding upon the shipper, the consignee and AGS.
- C. No employee, agent or representative of AGS is authorized or empowered to vary or modify any terms or conditions of the waybill.

## Application of Charges

Transportation charges for a Shipment, unless otherwise noted on the AGS waybill, will be based on the greater of the following:

- The actual weight, or
- The cubic dimensional weight (calculated as outlined in Dimensional Charges)

Transportation charges will be assessed from the named origin to the named destination as shown on the AGS waybill and the rates in effect on the day the Shipment is accepted by Associated Global Systems, including any cartage or other services provided.

Unless specifically otherwise agreed to in writing, Associated Global Systems retains the right to weigh and/or measure, for the purpose of applying correct charges, any Shipment(s) at any time while in AGS's custody and control and to collect the appropriate transportation charges without first advising, reporting back to, pre-alerting, or otherwise notifying Customer, Shipper, Consignee, or other interested party.

If Customer elects to leave the weight or dimensions unstated on the Waybill, Associated Global Systems will weigh and enter the Shipment weight on the Waybill for Customer. If Customer chooses to enter the weight and the weight reflected is found to have been understated, Associated Global System will correct the weight and charge for the accurate weight.
